## It's A Big Country

Clement Attlee's desperate appeal to his countrymen last week to save Britain by their own efforts is remote to most Americans.

They seem only indirectly concerned in the multiplying signs of distress in British affairs—the shortage of production, foreign exchange, and ways and means of rebuilding British prestige.

It is hard to believe that such evidence of trouble in their most powerful ally during World War II—their only powerful ally—is connected in any way with the safety of Americans. But of course it is.

The United States is witnessing at closer than comfortable range the struggle of a once-powerful nation to rise above the exhaustion of two great wars in one generation. It may be that Germany's plan to eliminate Britain as an element in European power politics has succeeded; Britain has the answer to that.

Whatever the answer may be, the United States is under heavier obligation than ever before to increase its capacity as the bulwark of the English-speaking peoples. Americans must try harder than they ever tried before to comprehend their responsibility for the principles of civilization which they have defended jointly with the British in two wars.

When Americans look at their own nation and say, "It's a big country," they must learn to think in proportion to its size. This is a big country. It has almost unlimited potential resources, greatest of which are the resources of its people.

These resources must be developed. They must be developed rapidly enough to offset the weaknesses of the British, whether those weaknesses are to be only temporary, or whether they prove to be permanent. Artificial limits must be removed. Hobbies must be taken off production. The United States must become as strong as it is able to be, not merely as strong as certain members of its population want it to be. Attempts to hamstring it are reasonable in spirit and not far from reasonable in law.

## Lilienthal Must Be Surprised

David E. Lilienthal is, after all, just another Harvard lawyer who joined the march on Washington in 1933. The fact he is still with the government, after most of his earlier companions have departed, does not make him indispensable.

Aside from the controversy that is swirling around his appointment to head the Atomic Energy Commission is the matter of Mr. Lilienthal, himself. He must be surprised by the number and vehemence of his friends, as well as of his critics.

His friends have discovered suddenly that the fate of mankind rests in his hands. Among them are some who scarcely knew he existed until it fell to his lot to become the storm center of one of the greatest arguments of modern times.

The argument is whether control of the sources of industrial power—fuel, water, power, monetary capital, manpower, transportation, etc.—shall be exercised by government under a system of state socialism, or by individuals and corporations under a system of private enterprise.

Mr. Lilienthal took his position in this argument early. He is an advocate of state socialism; TVA, of which he became the successful and respected chairman, is a direct application of state socialism. When he was appointed by President Truman to lead the Atomic Energy Commission, he automatically became an issue. Whatever may be said by those who would like to think they have won the battle to confine private enterprise to certain limited areas of trade, the battle is still in progress.

Mr. Lilienthal is in the thick of it. Atomic energy is in the thick of it. The United States is in the thick of it. With all due respect to Mr. Lilienthal, who is one of the ablest administrators turned up by the trial and error of the New Deal, he is only a symbol in this fight, not an indispensable personality.

## Planes Or Missiles?

Experiments with jet-propelled planes raise the question of what could be the military value of these spectacular juggernauts.

So far, their only practical use is limited reconnaissance. Under the proper circumstances, they will give a pilot a quick look—a very quick look—at territory which might not be visible by other means.

Beyond that, jet planes have no practical value, because they are essentially missiles—so fast that a bullet cannot be fired from them nor a bomb dropped with any accuracy. A Navy Tigercat actually caught up with bullets fired from it and was damaged by them, yet planes faster than the Tigercat already are winging over experimentation fields.

For all the glowing reports of planes approaching the speed of sound, the combat planes in use on V-J Day are still the most effective ones available. It may be that what was at first thought to be a further development of the airplane as a weapon of war may really be the airplane's successor—the pilotless, jet-propelled guided missile.

## Indian Housecleaning

Immediate fear of civil war has followed announcement that Great Britain will withdraw from India not later than June, 1948. The fear is expressed by old-time Indian political leaders.

The finest service the British government could do in pulling out of India is to take with it 50 selected political leaders, hiding them in the baggage so they could be recorded as mysterious-disappearance cases.

These would be the 50 best-known agitators who have made careers out of bedeviling the British—old timers who know nothing else. They have nothing whatever to offer India now that Britain is with-

drawing, and being old dogs they will learn no new tricks.

What India needs before June, 1948, is a housecleaning, not more bedeviling.

## The Stars Say

By GENEVIEVE KEMBLE  
For Wednesday, February 26

WITH a slowing down of the energies and substitution of deliberation and calm planning on already launched projects of prime importance, the attention of influential persons may be enlisted, if they are impressed by the soundness of the project as well as the excellent efficiency and effort put into it. Work toward such ends, with enterprise and studied purpose rather than aggressive and rash motions and procedures. Slow down for best results.

Those whose birthday it is may anticipate a year of most propitious development of their sound plans and workable ideas, based upon considered and calculated projects rather than spurts of energy and impulsive attacks under over-accelerated action. Wise and deliberate procedures should attract the hearty support and capital needed for expansion. But refrain from shooting over the heads of self and others interested by over-optimism.

A child born on this day may have excellent skills, energies and practical ideas, sufficient to win needed cooperation from those in influential places.

It's a shame that a mirror doesn't make some people see themselves as others see them.

## GUARDING YOUR HEALTH

Bleeding From Mouth or Nose

By HERMAN N. BUNDESEN, M.D.  
When bleeding from the mouth occurs, the average person is likely to be alarmed. And he has every right to be, for this may be a sign of a serious condition. Certainly, it should never be dismissed lightly without a thorough and expert examination.

As a matter of fact, the blood may not be coming from any portion of the mouth itself, but, rather, from the back part of the nose, the esophagus, which leads from the mouth to the stomach or the windpipe and bronchi which are the tubes in the lungs.

## When Bleeding Occurs

When bleeding from the mouth occurs, the doctor's first job is to find from just what source the blood is coming. With a mirror he will examine the back part of the nose or nasal pharynx. Then he will look into the larynx or voice box.

If he suspects that the bleeding is coming from the windpipe or bronchi he will make an examination with a bronchoscope which is an instrument made up of a tube with lights which can be passed into the windpipe and bronchi and permits the doctor to examine these structures directly.

If it is thought that the blood is coming from the esophagus which leads from the mouth to the stomach, an X-ray examination of the esophagus can be made followed by the use of an esophagoscope which is like a bronchoscope.

According to Dr. Paul M. Moore, Jr. of Cleveland, among the conditions which may produce bleeding from the esophagus and varicose veins, tumor, ulcer of the esophagus, or the presence of some object which has been swallowed. Varicose veins in the esophagus may cause no symptoms other than the bleeding. Treatment which sometimes is successful is injection of the enlarged veins with a solution of sodium morrhuate. This is carried out through the esophagoscope.

## Difficulty in Swallowing

A tumor of the esophagus will cause such symptoms as difficulty in swallowing over a long period of time together with occasional bleeding.

Such tumors frequently can be removed surgically, depending on their location. If surgical removal is not possible, X-ray treatments may be tried.

Bleeding from the windpipe and bronchi may be due to tuberculosis, pneumonia, tumors or bronchiectasis, a condition in which the bronchi are enlarged or dilated. X-ray and bronchoscopic examination permits of an accurate diagnosis.

The first step in the treatment of all these cases of bleeding is to stop the bleeding itself. Then the

depleting effects of loss of blood must be remedied and, if necessary, the giving of blood injections into a vein.

Finally efforts must be made to first determine and then cure the cause of the bleeding.

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th st., New York City.

## 'Voice of America' Fades As It Reaches Moscow

MOSCOW, Feb. 25.—The "Voice of America," the radio beamed to Russia by the United States department via Munich, appeared today to be yelling itself hoarse across the windy steppes with little effect.

A number of Russians, interviewed after the first week of operation expressed these opinions:

1. Reception is very poor.
2. The programs are too high brow.
3. There is considerable amateurishness.
4. The broadcasts are dull and uninteresting at times.
5. They do not sound American.

# Arabia Joins Global Politics Rising Tide Of Oil

is a story regarding the oil development in Arabia by Max Boyd, Assistant Press Bureau chief at the State Department, who has been touring the kingdom to study the situation at first hand.)

## Ohio Delinquent On State House Taxes

COLUMBUS, Feb. 25 — The state of Ohio is tax delinquent, according to Franklin County Auditor Fred C. Dunn. He says it owes real estate taxes on the state house and other public buildings here totaling \$120,000. Dunn published the state as a tax delinquent along with a lot of little delinquents. "If the tax delinquencies of all the little citizens are to be held up to public glare, then the state government should be subjected to the same treatment," Dunn said. Whether the state legislature now in session will do anything about it remained to be seen. The assembly was in recess over the weekend.

Grace Jackson, Miss Marie Kearney, Mrs. Harvey Thomas, Mrs. Agnes Love and Mrs. A. M. Gallagher of Bridgewater, Pa.; Mr. and Mrs. Harry Jones and son Wayne of Palmyra, and Samuel Cowan of Utica, Pa. They attended the wedding of Kenneth Lindsay and Florence West Friday evening in the Baptist church at Salem. The newlyweds returned from a short trip and were entertained at dinner Sunday in the home of his mother.

## Fire Prevention Efforts Spurred

Efforts will have to be redoubled this year to prevent fires, Fire Chief Vincent Malloy said today, stating the nation's fire losses totaled more than \$450,000,000 last year, the highest in history.

"We have an accidental fire in this country every minute of the night and day. Fire damage costs us nearly \$1,000 a minute. This terrible record must be cut down in 1947," he said.

"More than 10,000 acres of timber land were destroyed by forest fires," Malloy added. "This record is so bad that President Truman has called a National Fire Prevention conference in May to find new ways to fight the fire menace."

Malloy urges the people of Salem to take steps now to prevent accidental fires. "Make sure there is no rubbish in your cellar, and check your electrical appliances for frayed wires," he warned. "Be certain your cigarettes and matches are out when you discard them. Careless smoking was the biggest cause of fires last year."

He urges housewives to be more careful with boiling pots or grease in the kitchen to avoid kitchen fires. "Make certain the family fire extinguisher is in working order," he continued, pointing out that nearly 60 percent of accidental fires last year were put out with fire extinguishers.

"Your fire department will gladly send a fireman to inspect your home

or factory for fire hazards," the chief said. "Everyone must be extremely careful if we are to prevent accidental fires from taking another tremendous toll in 1947."

## 1947's Newest Automobile

This is a view of the new Land Cruiser which has just been added to Studebaker's line of postwar automobiles. Although following the company's ultra-modern styling, the model is longer, roomier and more richly appointed than any previously announced by Studebaker. Harmonious interior color combinations, deep cushioning and high quality fabrics are among features which promise to make the car a standout in the luxury automobile field. The Land Cruiser will be available only as a four-door sedan.

The first public presentation of an entirely new Studebaker model combines the richest of pre-war elegance with the best of post-war styling.

The model is the 1947 Land Cruiser. Available only as a four-door sedan, it carries the now familiar Studebaker design to even higher standards of spaciousness and comfort.

"Since the Land Cruiser has only recently gone into production at the Studebaker plant in South Bend, Ind., we consider ourselves fortunate in being able to arrange a showing at this early a date." "The car is longer and roomier than any we have previously shown, but it will undoubtedly become best known for its restful cushioning and tasteful interior appointments."

"Just as Studebaker beat the rest of the field with a genuine postwar car, it has built this model with a determination to excel all others in luxury."

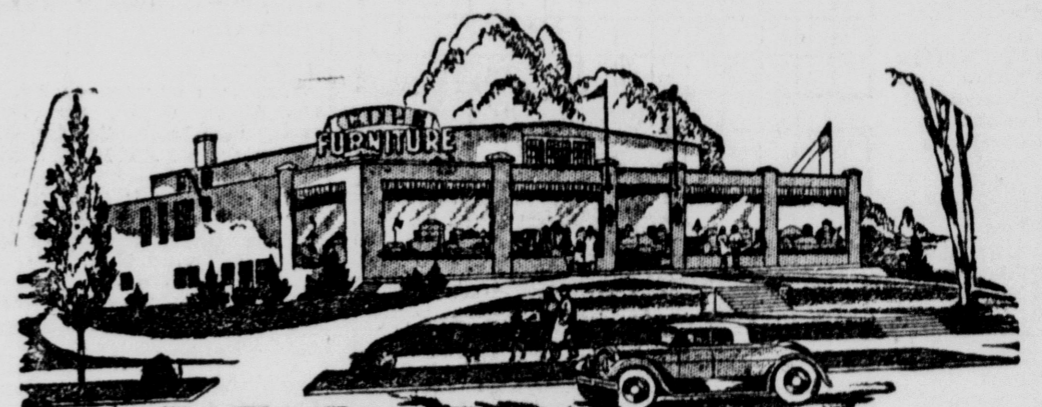

In appearance the Land Cruiser is a longer wheelbase version of the Commander and the increased length of the body has enhanced the beauty of smoothly flowing lines. Conforming with the trend that is expected to become more pronounced in all future automobiles, passenger seats and engine have been moved forward as part of a scientific redistribution of weight. This has resulted in two major automotive achievements. Better chassis balance and a lower center of gravity have been reflected in a remarkable advance in riding ease. Secondly, passenger compartments have been lowered and extended to the former fender boundaries. Front seats are a full five feet in width.

Exteriors are further marked by the use of curved, one-piece windshields, complementing the over-all visibility that is one of the model's most impressive features. Doors are extremely wide and floors low, assuring easy movement in or out of the passenger compartment.

Color harmony as well as luxury characterizes the exclusive interiors of the Land Cruisers. Eight body colors and two shades of broadcloth upholstery are available. In addition to the superlative quality of the fabrics, pleats and tufts lend a distinctive custom-built flavor to cushioning. Wrapped cushion spring toppers are another contribution to comfort. Appointments include adjustable rear compartment ventilation windows, assist straps, leather robe rails, fully carpeted front and rear floors, scuff pads and a tasteful application of garnish molding and stainless steel trim. Other features frequently listed as extra-cost items but included as standard equipment on the Land Cruiser are electric clocks, positive-action windshield wipers, hill-holders and oil filters.

## Garden Club Planning For August Show

A report on the schedule for the club's August flower show was given by Mrs. Joseph Calladine at a dessert luncheon meeting of the Salem Garden club Monday afternoon in the public library assembly room.

Mrs. Burr L. Leeper was program chairman and the luncheon committee was comprised of Mrs. C. L. Flickinger, chairman; Mrs. N. L. Reich, Mrs. L. P. Koenreich, Mrs. Frank Mangus, Mrs. James E. Britt, Mrs. John Little, Miss Helen French and Mrs. Charles McCormick.

Mrs. J. B. Atchison discussed "What's New in the Spring Catalogues."

A spring table setting by Mrs. Robert Buckholdt and the "Arrangement of the Month," in charge of Mrs. James Rawsthorne, highlighted the decorations.

After the meeting the members attended the Farm and Home Labor Saving show in a body.

A meeting on March 24 will be at the library.

## Miss Kalbfell Plans Wedding In June

A June wedding is planned by Miss Rose Alice Kalbfell, daughter of Mr. and Mrs. Edward Kalbfell of E. Second st., and Francis Gilbert of Rogers, whose nuptial was announced today.

The bride-elect is employed at the Scott candy store.

Mr. Gilbert is employed at the Leetonia sand bank.

Mr. and Mrs. William Panuska of S. Union ave., have returned from a honeymoon to Cleveland. Mrs. Panuska, the former Olga Zatkos, has resumed her duties at the Art store.

## Garden Group Studies Care of Flowers

An instructive talk on "The Care of African Violets" by Mrs. W. P. Davis featured a meeting of the Garden Study club Monday evening at the home of Mrs. Donald Harvey, Ridgewood dr.

Mrs. R. R. Miller, also a guest of the club, described the activities of the Garden Club of Ohio Inc.

A paper on "Amaryllis—Certain to Please" was offered by Mrs. Frederick Koenreich.

Mrs. Martin L. Roth was received as a member.

Having decided to join the Youngstown Garden forum, the members appointed Mrs. Dana Floding and Mrs. Louis Weirick delegates for the ensuing year.

This club will have part in the annual flower show sponsored by the Salem Garden club in August. Mrs. Wallace Duncan was made chairman.

St. Patrick's day appointments were favored in the lunch served by the hostess and her associate hostesses, Mrs. O. A. Naragon and Mrs. Lester Bateman.

## "UNBLOCK" your DIGESTIVE TRACT

Don't expect to get real relief from headache, sour stomach, gas and bad breath by taking soda and other alkalis if the true cause of your trouble is constipation.

In this case, your real trouble is not in the stomach at all. But in the intestinal tract where 80% of your food is digested. And when the lower part gets blocked food may fail to digest properly.

What you want for real relief is something to "unblock" your lower intestinal tract. Something to clean it out effectively—help Nature get back on her feet.

Set Carter's Pills right now. Take as directed. They gently and effectively "unblock" your digestive tract. This permits all 5 of Nature's own digestive juices to mix better with your food. You get genuine relief from indigestion so you can feel really good again.

Buy Carter's Pills today. "Unblock" your intestinal tract for real relief from indigestion.

## \* WE, THE WOMEN

BY RUTH MILLETT

"OUR CHILDREN think their mother and dad are really quite wonderful—because we've always built each other up to the kids."

"Your dad was pretty smart to be able to fix that I say when Jim fixes one of their toys."

"Your mother is SOME cook, kids! Jim will say after a good meal."

"It's easy for parents to 'sell each other' to their children," continued this mother, "because children really want to look up to their parents and have a real need for feeling that they are something special in the way of grownups."

Sure, it's easy if parents take the trouble. But all too many of them don't. Making each other look good to their children is probably one of the most neglected aspects of child training.

Too many mothers and fathers don't bother to make their kids appreciate all the things the other does for them.

Too many parents are forever criticizing each other either to or before the children, pointing out flaws, instead of playing up good points.

And then when the kids turn into adolescents who haven't any respect for their parents' ideas and standards the parents can't understand wherein they have failed.

Effects show later. If, through the years, Papa has low-rated Mama's brains why should their adolescent daughter respect her judgment?

And if through his childhood a

son has seen, through his eyes, a picture of a failure why the son feel his opinions are respect?

Sure, it's easy for parents to each other to their children they have to start when the children are little. Saying "I have you talk to your Mother" when they are half isn't the way to do it.

# Russell - Cannon Vows Are Heard At Columbiana

COLUMBIANA, Feb. 25—Miss Pearl Marie Russell, daughter of Mr. and Mrs. Ralph Russell, 262 S. Elm st. was united in marriage with David Cannon, son of Mr. and Mrs. Albert Cannon, south of Columbiana, Saturday afternoon at 1:30 o'clock.

The double ring ceremony was performed in the Methodist church by the pastor, Rev. Glenn L. Tennell. The bride was attended by her sister, Mrs. Hugh Smith of Columbiana, and the groom by his brother Charles, as best man.

For her marriage, the bride wore a pale blue suit with navy blue accessories and pink and white corsage.

The wedding was witnessed by the immediate families and a few friends.

The bridal couple left soon after the ceremony on a wedding trip.

## Food Plant Group To Meet

The committee of the Columbiana and Mahoning county fruit growers, which is continuing its survey to ascertain whether there will be sufficient interest to justify establishment of a food processing and freezing plant in the area, will meet some time later at the call of its chairman, Harry D. Holloway of Leetonia.

Remaining members of the committee are J. Paul Wilms, Columbiana; Dean Price and Frank Pappana, New Waterford; Columbiana County Commissioner Kim Crawford, Rogers; Steve Kaniske, Salem; and Oscar Calvin, Greenford.

If established, a co-operative plant appears to be favored, as it would give the growers the profits, although a stock company plant owned by growers and others, or a plant owned and operated by outside interests have been considered. The exact location has not been decided.

Crops to be used at the beginning would be peas, lima beans, strawberries, raspberries, apples, and possibly peaches and corn. Those to be added soon would be peaches, cherries, snap beans, sweet corn, etc. Frozen French fried potatoes and frozen meals are coming on the market.

F. E. Luce, manager of the co-operative freezing plant at North Girard, Pa., who was present at a

recent meeting of the committee here, said the plant started in June, 1946, with 40 to 50 members and now has 150.

Earl B. Tussing and Alvin Moll, vegetable specialists of Ohio State university, and Donald Comin of the experiment station at Wooster also were present.

## Toes Tax Line

## Suggests President Confer With Stalin

(By Associated Press)  
WASHINGTON, Feb. 25 — In a Senate speech, Senator Langer (R-N.D.) urged today that President Truman "take charge of negotiations with Russia himself" and seek a personal meeting with Premier Stalin.  
His plea was voiced against a background of these developments:  
1. Lt. Gen. John R. Hodge, commander of American occupation forces in Korea, said there appears to be "something to" reports the Russians are organizing and training Korean troops. Hodge made this statement to reporters, in response to questions, after a White House call.  
2. Moscow's continued objections to Undersecretary of State Dean Acheson's characterization of Soviet foreign policy as "aggressive and expanding."  
Langer suggested Mr. Truman "pick up the telephone and call Joe Stalin, arrange a meeting and get this matter of fear which each country has for the other out of the road."  
"It is my belief," he said, "that these two men can sit down and through mutual understanding and common sense arrive at, do away with the feeling that we are on the verge of war with each other and secure peace."

## Farm Bulletin Shows Uses of Native Lumber

A bulletin issued by the Ohio Agriculture Extension Service, "FARM USES OF NATIVE LUMBER" outlines the use for 29 varieties of trees commonly found in Ohio.  
The average farm uses 1200 board feet of lumber, 50 fence posts and five cords of fuel wood annually. Practically every need for wood on the farm can be filled from trees

## New Viceroy

Lord Louis Mountbatten, above, wartime chief of the Southeast Asia command, has been named Viceroy of India, succeeding Viscount Wavell.

growing in the farm woodlot.

Even the lesser prevalent trees such as Mulberry is one of the best for fence posts. Willow lumber can be used for temporary shelters, hog and poultry buildings. Beech, one of the most prevalent species, is one of the best native woods for rough barn framing and is often used for studding, joists, floors, partitions and stanchions. Ironwood, commonly considered a weed tree, is hard, strong, and wearable. It is used for mallets, wedges, tool handles, fence posts and boom poles.

A combined timber growing and timber utilization program should become a part of every farm operation. All trees have a use.  
The foregoing bulletin can be secured from the County Extension Forester Herbert Mattern in the county agent's office in Lisbon.

## TOURNAMENT DEPARTMENT

Results At South  
Class B  
Columbiana 62 Sebring 23  
Warren St. Mary's 48 Leetonia 40  
Class A  
Canton Timken 56 Wilson 33  
Canton Township 66 Boardman 32

THE OPENING OF THE CLASS A tournament at Youngstown South Monday night went just as expected. Canton dominated play and had little trouble with fair Youngstown schools.

Timken, Kenny Kate's charges, lacked a completely impotent—but not a bad team to watch—Youngstown Wilson in the 8 p. m. opener, 56-32, without a show of too much power and Canton Township, a seeded team, looked good in facing Boardman 66-33.

Neither Boardman nor Wilson had much to brag about in the way of offense or defense, but on the other hand, neither Timken nor Township looked like world beaters.

Timken's 6-4 center, Vic Polosky racked up 13 points by sheer height advantage and Township's 6-2 Ed Palmer set the young tournament high with 16 points, but neither looked like All-State material.

ALL IN ALL THE FIRST NIGHT was rather flat, except for the very impressive debut of Columbiana's Clippers in Class B, where they seemed destined to be the big gun until much tougher stuff comes along. Timken boasts a lot of height, as does Township, but neither appeared the all-powerful outfits they have been billed by Canton routers.

In the Timken-Wilson game Timken hit a very good 36 per cent with 23 good ones in 63 attempts from the floor. Wilson meshed 27 per cent, not bad in any league, with 12 good in 44 tosses.

In the other Class A fray Boardman hit only 17 per cent, or 10 baskets in 57 tries. Township, on the other hand with a definite height advantage, completed 31 per cent, or 29 baskets in 92 shots.

Coach Red Ash of Township seemed uninterested in holding the score down as he ran it to 49-22 before he inserted a sub late in the third period.

From early glances, neither Township nor Timken seems of the calibre to upset Canton McKinley, the No. 1 team of the upper bracket. The upsets do come, however.

TONIGHT'S PLAY PITTS eight teams in action, then a layoff of A play until Saturday, while the B sectional takes over Wednesday, Thursday and Friday evenings.

At 6 Campbell Memorial and Youngstown Chaney clash in what should be a hot affair. At Ursuline and Cy James' Ladies seem the favorites over the Stark county entry. At 8 East Palestine looms as the definite underdog to Youngstown South and at 9 Struthers and Girard tee off in a fair attraction—about even up.

## GOOD WILL DEPARTMENT

A lot of Salermities who met and talked with Bill Veck when he visited Salem last month have wondered how the Cleveland Indians president learned of Salem's Edward Chaplow, the former Salem News carrier who recently had his leg amputated at the Cleveland Clinic.

Veck, the ever-thoughtful and never-too-busy man, paid Ed a visit at the Clinic and brought him a pair of brand new American league baseballs, all to Ed's surprise and pleasure.

The facts of the story are that Bob Wright, a friend of the family, wrote Veck telling him of Eddie's stay in the hospital. Bob suggested that Veck pay the lad a visit, which he promptly did.

The popular president of the baseball club, who only recently received a wooden replacement for his own leg amputated after a war injury, showed Ed how his new leg worked and all in all brought the youngster a lot of pleasure and confidence.

## DEPARTMENT OF CONJECTURE

Chances of an "all-Canton" sweep of the Class A tourney at Youngstown are being banttered about freely in Canton.

Bud Volzer, sports editor of the Canton Repository, says in his column, "If some way could be found to nip the upset bug in its egg, there wouldn't be any reason why local basketball fans couldn't begin right now to count on an all-Canton windup in the north-eastern Ohio section tourney at Youngstown."

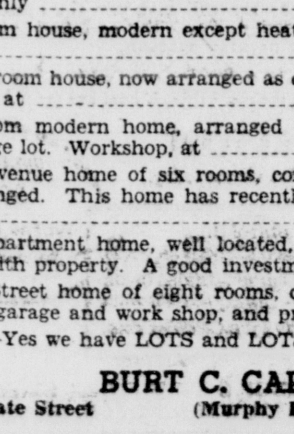

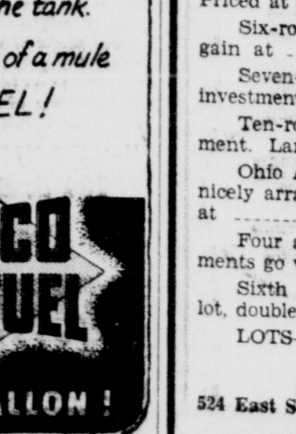

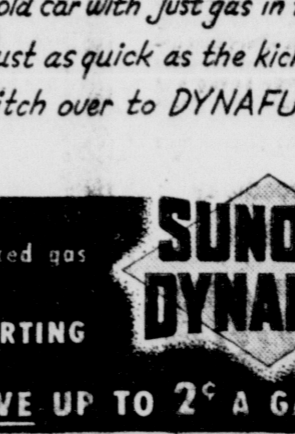

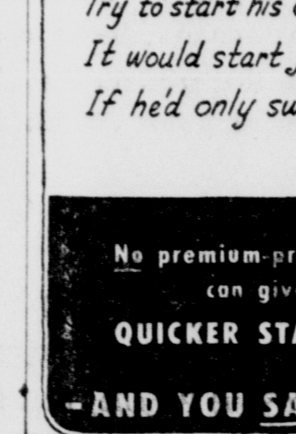

"And that's no idle boast or dream, there are two outstanding facts which could turn the possibility into a 'sure' thing." "First of all, Lady Luck, for a change, smiled kindly on the majority of Canton's quintets in the tourney drawings last week. The fickle femme came through with three seeded positions—for McKinley, Lehman and Township—then to be doubly kind she handed McKinley's Bulldogs a first-round bye."

The seedings and subsequent drawings eliminated the possibility of McKinley and Lehman meeting anywhere along the sectional route. Further than that, the "luck of the draw" postones probable clashes between Timken and Township and Lehman or Central Catholic and Lincoln until the semi-finals.

"The second factor pointing to a Canton sweep of sectional laurels is the power wrapped up in local quintets. With one exception—Salem—no team among the 28 which will compete in the scramble can hold a candle to the 'big four' in the Canton lineup—Lehman, McKinley, Township and Timken."

Those are Bud's views on the pre-tourney lineup. They are points well-made. But just for the record, it might be well to add that Salem, that team rated above the rest, drew into the stiffest bracket there

THE GUMPS

# Columbiana Laces Sebring 62-23; Bears Lose

The girls team of the Salem Saxons club, bowling in the Transylvania Saxon Junior American tournament in Columbus over the weekend, walked off with top prizes in each event of their division of the tourney, although the Saxon men failed to take any firsts.

The girls team, composed of Gertrude Girscht, Betty Wagner, Helen Huber, Jo Linder and Helen Polder, rolled a 2085 to win the team event.

Huber and Polder teamed to clinch the doubles with a 913 total, while Jo Linder fashioned a 483 to win in the singles competition.

Betty Wagner was second in the singles and Helen Polder copped the all-events competition with 1431. She also had high game in the tournament with a 211.

In the men's division, Detroit's team copped the team event, while individuals from New Castle won the singles, doubles and all-events.

Bowlers from Ohio, Pennsylvania, Illinois and Michigan competed in the two-day tournament.

From early glances, neither Township nor Timken seems of the calibre to upset Canton McKinley, the No. 1 team of the upper bracket. The upsets do come, however.

## Clippers Impressive In Class B Debut; Leetonia Drops 48-40 Tilt Monday

Columbiana's Clippers—currently rated as one of the top Class B outfits in Ohio—functioned in auspicious manner Monday night at Youngstown South field house, clipping a not-too-potent Sebring outfit 62-23 in a tournament debut which will probably be the high score of the affair, unless the Clippers themselves choose to better it.

In the other Class B opener at South, Leetonia Bears, lacking the real scoring fire until the closing minutes of the final frame, fell before Warren St. Mary's 48-40 after three quarters of nip and tuck play.

The first night of the A and B tourney, slipped evenly between four A clubs and four B clubs, was highlighted by the impressiveness of the Clipper outfit, which scored at will throughout.

Columbiana celebrated "Rich Berryman night" as the Senior floor general, leader of the outfit through its 17-1 season, racked up an easy 18 points on seven field goals and four fouls. Lee Thomas was next in line with four field goals for 8 points.

Berryman, not usually a clipper scorer, was the brunt of the higher offensive as the victors walked to a 12-6 first quarter margin, a 24-8 halftime mark and a 45-14 third period lead.

Columbiana, different from Salem's Quakers last week, had no trouble at all with the Trojans, who were completely impotent all evening until Coach Johnny Cabas inserted his reserve outfit.

Even against the reserves Sebring could only score six points in the final frame as Columbiana racked up 17.

The Clippers were impressive from the floor, hitting 25 of 70 shots for a good 35 plus percentage. Sebring managed only nine baskets in 43 attempts for a fair 20 per cent.

The Clippers, however, were not at their best and promise better showings as the competition gets tiffier.

The victory advances Columbiana a round farther, slated to face Sebring, the Columbiana county Class B winner at Lisbon last week, at 9 p. m. Thursday.

Leetonia Drops First One  
Joe Fortunato's Leetonia Bears didn't lose to Warren St. Mary's without a battle.

The Bears were very much in the ball game all the way, with Warren pulling to the front early in the fourth frame, 32-26.

Up until that time Leetonia was definitely a contender, the score being tied or the lead changing hands a total of 14 times before that.

Little Eddie Sullivan, by far the most talented Bear on the floor, scored the losers with 11 points. His drive and constant alertness kept the Bears in the game all the way.

Sammy Stumpo, always competitive, turned in a nice floor game and added six points to the total. Steffer, another Leetonia star, contributed 11 points also and was a thorn in Warren's defense all evening.

Leetonia managed a 7-7 count at the quarter, trailed 18-15 at the half and drifted five points behind, 28-25 at the close of the third frame. Although they never regained the lead, Leetonia's Bears were constantly a threat until the final whistle.

Leetonia marked up a 20 per cent floor average with 14 baskets in 58 tries. Warren meshed 25 per cent, hitting 20 of 80 attempts.

## Ohio Toll Bridges Paid Off To Tune Of \$671,515 In '46

COLUMBUS, Feb. 24.—The business of getting people across rivers without getting their feet wet netted a profit of \$671,515 in 1946—a record return—the state bridge commission reported today.

In addition to that profit, \$700,000 in bridge revenue bonds were paid off, also a record, the commission disclosed in its annual report.

This banner business in stream-spanning was accomplished despite the freeing from tolls of two more bridges, the Sandusky bay bridge and the Pomeroy-Mason bridge.

More than 5,000,000 vehicles cross-

ed the four state-operated spans during 1946, still another mark, and this freest of traffic insured the lifting of tolls from the Steubenville-Weirton bridge during the summer or fall of this year, the commission said.

Gross income from the four bridges was \$874,742.63, exceeded twice before: \$877,616 in 1940 and \$906,199 in 1941.

This led the commission, after explaining gross income would also have been a record if two spans had not been freed of tolls, to state that "the year 1946 was the best year in the history of the bridge commission."

### Two Toll Bridges Left

The commission now operates under the toll system only the Steubenville-Weirton bridge and the East Liverpool-Chester bridge.

"With two of the commission's bridges already toll free, the third to become toll free this year and the

freeing of the fourth within the foreseeable future, the bridge commission can look forward to the day when its mission will have been fulfilled and its existence brought to a close," the report concluded.

Revenue for 1946 from the Steubenville-Weirton bridge totaled \$269,065, compared to \$219,745 the preceding year, bringing a net profit of \$189,179. The net in 1945 was \$159,546.

The East Liverpool-Chester bridge piled up a net profit of \$237,078, compared with only \$105,409 in 1945. Operating expenses were \$47,438 and revenue was \$307,313.

In 1945, operation cost \$64,136 and revenue was \$194,814. The same amount of bonds was retired in each year: \$125,000, leaving \$1,200,000 in outstanding bonds.

## Disabled War Veterans May Re-enlist In Army

Sgt. Harvey J. Kennedy, of the U. S. Army recruiting sub-station, Salem Postoffice building, announced today that the deadline date for re-enlistment in grade of Combat Disabled Army Veterans, has been extended to March 31.

Sgt. Kennedy states that these men can be re-enlisted in the grade held at the time of discharge.

In recognizing its responsibility to many former servicemen previously denied an Army career because of physical handicaps and acknowledging their usefulness in certain categories of occupational specialties, the War department intended this initial quota to be an opening wedge in a systematic program to give these veterans an even break in enlistment opportunities.

A list of positions that can be filled by partially disabled veterans includes mechanics, postal clerks and machine operators.

## HOMEWORTH

Mr. and Mrs. C. E. Sinclair of Cleveland visited over the weekend at the home of Miss Anna Sinclair.

Mr. and Mrs. Dave Holloway of Cleveland were guests of her mother, Mrs. Harriett Sharp, over the weekend.

Mr. and Mrs. Bruce Rivers of

Greensburg, Pa., visited her parents, Mr. and Mrs. L. T. Tracy.

**Club Entertained**  
The Blue Monday club held their monthly meeting at the home of Miss Jane Loudon.

The evening was spent playing "500" with the high prize going to Mrs. Donald Reeder and the consolation prize to Mrs. Kenneth Wickersham. Lunch was served. The next meeting will be at the

home of the president, Mrs. Wick-ersham.

The American Legion will have a card party Friday evening at the town hall.

**Dinner Honors Vets**

The Presbyterian church gave a dinner Saturday evening in the church basement to honor the boys who served in World Wars I and II. There were 150 veterans and their families present.

THAT grille's as fresh and fashion-worthy as a Paris label in a new bonnet.

That long, clean, sweeping-all-the-way-through fender line is as much a "must" with the style-wise as white tie with tails.

There's the sparkle of bright, fresh colors—the rich sheen of chaste chrome—the sleek, slick, able look of an express cruiser, shined and polished for Regatta Day.

But is this the only way in which Buick's smart? Not by a barrelful!

Look at the engine room in that bonnet—that means torrents of Fireball power to put the lift of a lifetime in every mile.

That hug-the-road look means steadiness always—and cushiony coil springs on all four wheels spell serene disregard of any road's rude jolts.

Look at the width amidships that gives you lolling room both front and back—and at push-button controls that not only raise and lower the top, but move door windows up and down and the front seat back and forth.

And look deeper. At engines so fine-made they keep their new-car liveliness seemingly forever. At stout metals and sturdy underpinning, at husky, curl-around bumpers,

controls light as a ladyfinger; at wheels that curb heel-over on turns, and brakes both easy and sure.

Fact is, in this trim Convertible or any of the eight other body types, Buick's the smartest buy as well as '47's smartest car. It's the place where dollar-sense meets with style-sense to produce America's most wanted automobile.

Such being so—why hesitate? A day lost now in placing an order can be a week lost later in taking delivery, so—get your order in now!
